

Marine balers

Marine X25

FOR LARGER DEMANDS AT SEA

The Marine X25 is built with a superior press force for rational waste handling on ships, rigs and shipyards. It is a compact machine, which is ideal to install where space is limited.

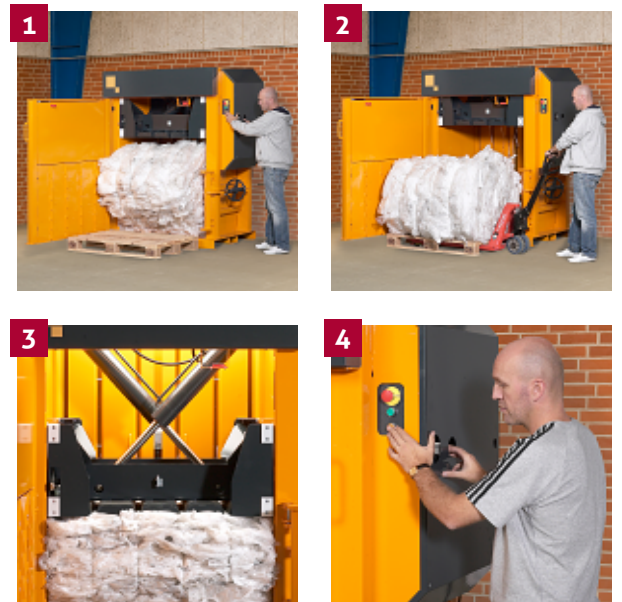

This baler has a wide filling opening, which makes the compression of waste and daily operation as easy as possible.

The compressed bale can easily be stored and transported ashore with a fork lift or pallet truck.

Technical specifications

Press force (t)	25
Power supply	3x230/440/690V 60Hz
Motor (kW)	4.0
Noise level (dB)	59-60
Cycle time (sec)	23
Dimensions WxDxH (mm)	1745 x 1260 x 1995
Weight (kg)	1410
Filling opening WxH (mm)	1090 x 530
Filling height (mm)	955
Chamber height (mm)	1380
Stroke (mm)	950
Bale size WxDxH (mm)	1200 x 800 x 800
Bale weight cardboard (kg)	250-300
Bale weight plastic (kg)	300-400

1 Compact your waste and eject the finished bale. **2** Remove and store the bale until collection. **3** The cross cylinders ensure stable compression and a low overall height. **4** The bale is ejected by a safe two-hand operation.

- **Noiseless**
Due to a unique hydraulic system
- **Special power supply**
3x230/440/690V - 60 Hz
- **Compact design**
Easy installation with low overall height
